CASTLEFORD COLLEGE COURSE INFORMATION:

Welding Skills – Upskill and Coding

ENGINEERING

Castleford College

Level dependant up on experience.

Course Overview

Are you new to welding or looking to develop your existing skills? This practical, hands-on course is designed for individuals already working in the welding industry or looking to start a career in the trade. For new entrants, the course provides an opportunity to develop practical skills in an agreed welding process – MIG, MMA or TIG. For experienced welders, we will assess your current abilities and agree a target welding process and position, with the aim of progressing towards a recognised positional welding code. Whether you're starting out or looking to gain further qualifications, this course is tailored to your experience and career ambitions.

What You Will Study

The course is hands on with and in one of the following processes:- MIG, MMA and TIG welding.

Attendance Expectations

10 Consecutive days or via bespoke plan such as evening sessions.

How You Will Be Assessed

Practical tuition and target driven.

Entry Requirements

None

Fee Information

*Free
