

# FdSc Sports Coaching and Exercise Sciences

## Course Overview

Whether you're a community coach wanting to develop your abilities or an aspiring coach to elite athletes, this course will put your knowledge into practice and ensure you help people participating in sport achieve their full potential.

This may involve supporting professional sports people, sports teams, community teams, or school groups and working closely with them to improve their individual and group performance. The programme includes sport science and coaching modules to ensure you have a good understanding of the theory that underpins sports performance. Employability is a key theme of the programme and the team are currently working closely with many professional teams such as Wakefield Trinity, Castleford Tigers and a number of key providers for students to undertake voluntary work to complement their academic programme.

## What You Will Study

Modules studied can include:

- Foundations of Sport and Exercise Psychology (20 credits)
- Strength and Conditioning (20 credits)
- Foundations of Nutrition (20 credits)
- Skills coaching (20 credits)
- Coaching Young Performers (20 credits)
- Research and Investigative Project (20 credits)
- Nutrition for Sport Performance (20 credits)

## Attendance Expectations

You will attend college two days per week.

## How You Will Be Assessed

The programme includes a varied range of academic and vocational assessments designed in line with employer consultation to provide you with the key skills and attributes necessary for working within the sports coaching industry. These include: group presentations, portfolios, laboratory work, progress files, simulations, blogs, and open-book examinations.
