Course Overview

The HND in Animal Management is a vocational programme designed to cover practical, theoretical and ethical aspects of the management of animals.

The course structure has been selected to provide a relevant learning environment and opportunities to meet the needs of local and regional students. It has been designed to either enable learners to progress to a related degree programme or to make a direct entry to employment through the acquisition of practical skills and relevant underpinning knowledge. These skills will be put to the test during a variety of visits, work placements and trips including residentials in both the UK and Europe.

You will learn through:

- Lectures
- Practical work in animal units
- Field trips
- Tutor led tutorials
- Laboratory work
- External visits
- Independent learning, study and research

What You Will Study

- Biological Principles
- Research Project
- Anthrozoology
- Evolution and Adaptations
- Humanisation of Companion Animals
- Wildlife Conservation
- Breeding and Genetics

Attendance Expectations

In class session and independent study on a weekly basis.

How You Will Be Assessed

- Essays and reports
- Exams
- Laboratory reports
