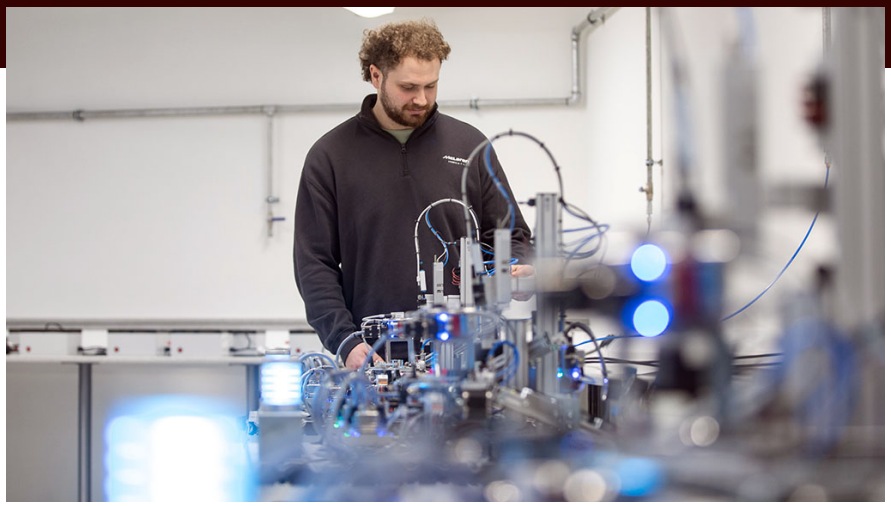
SELBY COLLEGE COURSE INFORMATION:

HND Engineering (General) (HTQ)

ENGINEERING
Selby College



START DATE
September 2026

LEVEL
, Level 5

STUDY MODE
Part-time

DURATION
2 years

AWARDING BODY
Pearson

LOCATION
Selby College

Course Overview

Take your engineering skills to the next level.

To join this course, you will need to have completed a HNC in a related engineering discipline. The HND is designed for those who are ready to deepen their knowledge and develop the advanced skills needed to succeed in today's fast-moving engineering sector.

Whether you are progressing from your HNC or looking to enhance your career prospects, this course will build your confidence in problem-solving, innovation, and technical application. You'll expand your understanding of core engineering principles while developing the practical and analytical skills valued by employers.

This qualification also provides a clear pathway to further study. If you're considering progressing to a full BEng degree, you may be able to take advantage of our Degree Apprenticeship route and complete your degree in a shorter timeframe.

What You Will Study

You will study a range of advanced engineering topics, including Professional Engineering Management, Further Engineering Mathematics, Commercial Programming
Software, Distributed Control Systems, Further Electrical Machines and Drives, Embedded Systems, Analogue Electronic Systems, and Further Control Systems Engineering.

As you progress, you'll apply your learning to real-world engineering challenges, developing the confidence to design, analyse, and improve complex systems. You'll build in-demand skills in programming, automation, control, and electronics–preparing you for modern, high-tech engineering environments.

Alongside your technical knowledge, you will strengthen your research, critical thinking, and problem-solving abilities–key skills that employers value and that will support your career progression or further study.

Attendance Expectations

One day per week.

Need More Information?

For additional course information please contact the Course Information Team on **01924 789111** or email **courseinfo@heartofyorkshire.ac.uk**.

How You Will Be Assessed

You will be assessed by a selection of practical skills-based tests, assignments and workplace projects.

Entry Requirements

Level 4 HNC in General Engineering or similar discipline.

AND

Two satisfactory references.

Fee Information

Further Study

A degree top-up course including BEng (Hons) in General Engineering which is offered at Selby College.
