

Level 2 Carpentry & Joinery

Course Overview

This qualification aligns to the knowledge, skills and behaviours in the ST0264 Carpentry and Joinery Occupational Standard. It is for those individuals who are looking to work in the construction industry, specifically as a craftsperson in carpentry and joinery. Carpenters and joiners have the skills and knowledge to manufacture and install structural and non structural timber products and components. You will gain an understanding of the skills and knowledge that are important when working as a carpenter or joiner or progressing to further learning and training in this area.

What You Will Study

All Construction related study programmes cover health, safety, and principles of construction relevant to the trade and sustainability. They also aim to develop practical skills for this craft.

- Principles of working in the Construction industry
- How to Work Safely in a Construction Environment
- Timber Technology
- How to Produce Drawings and Cutting Lists
- How to Mark Out and Cut Traditional Joints
- How to Manufacture/Fit Windows and Doors
- How to Manufacture Staircases
- How to Set Up and Use a Range of Hand and Power Tools
- How to Construct a Stud Partition Wall
- How to Construct a Timber Floor
- How to Hang a Door

How You Will Be Assessed

Theory is assessed through externally set online examinations taken typically from October to May; practical skills assessed through an externally set synoptic, this assessment completed in June.

Entry Requirements

5 GCSEs at Grade 9-4, including English and Maths.

OR

GCSE English and Maths at Grade 9-4 with Level 1 Diploma in Carpentry and Joinery.

All learners will be required to complete a BKSb assessment.
