

Level 2 Light Vehicle Maintenance & Repair Principles

Course Overview

This course is designed for students who have completed the Level 2 Certificate in Motor Vehicle Studies and are ready to further develop their practical and technical skills. It builds on previous learning with a deeper focus on mechanical systems and fault diagnosis. Students will learn how to identify and diagnose simple faults, apply structured problem-solving techniques, and carry out more advanced inspection and repair tasks.

The course covers all key areas of vehicle systems, with an emphasis on developing a broader understanding of how each system functions and interacts. This qualification is ideal for those looking to progress into employment, an apprenticeship, or further study.

What You Will Study

The programme is delivered through a combination of practical workshop sessions and classroom-based theory. Students who have not yet achieved a Grade 4 in GCSE Maths or English will continue working towards these qualifications alongside their technical studies.

Units include:

- Health and Safety in the Workshop
- Fabrication Techniques
- Chassis Components
- Vehicle Inspection Procedures
- Electrical Systems

How You Will Be Assessed

You will be assessed through practical tasks in the workshops, completion of portfolio work and end of unit online exams.

Entry Requirements

GCSEs at Grade 9-3 in English and Maths.

AND

Level 1 Certificate qualification

START DATE

September

LEVEL

Level 2

STUDY MODE

Full-time

DURATION

1 year
