For further information about this course, including Entry Requirements, Assessments and Further Study, scan the QR code.

Course Overview

This occupation will involve carrying out advanced skilled work in either a construction site or a workshop, mainly using timber products to create and install building components. Advanced carpenters and joiners are able to undertake complex jobs that require high levels of practical skills and knowledge.

This apprenticeship has two pathways:

- Advanced Site Carpenter- usually working on a building site or in domestic and commercial premises.
- Advanced Architectural Joiner- normally working in a workshop.

Apprenticeships give you the opportunity to work for a real employer, earn a real salary and gain a real qualification whilst gaining valuable workplace skills and experience. If you are aged 16 or above, are driven to succeed in a particular industry and are willing to commit yourself to training and study, then an Apprenticeship could be the right career move for you.

What You Will Study

The apprentice will learn, work, earn and achieve a qualification all at the same time.

To achieve the apprenticeship they will complete the following:

- An industry designed and recognised apprenticeship
- End Point Assessment (Knowledge Assessment and Practical Assessment)

The apprentice will work towards the following Functional Skills:

- Mathematics up to Level 2
- English up to Level 2

Learners who have already achieved GCSEs (9-4/A*-C or equivalent) in Maths and English may be exempt from Functional Skills.

The apprenticeship is mainly work based, with one day per week in college. The apprentice may also be required to attend College for functional skills if needed.

How You Will Be Assessed

Knowledge Assessment and Practical Skills Assessment
