

Motorcycle Maintenance & Repair Principles

Course Overview

This course is designed for students who have successfully completed the Level 2 Certificate in Motorcycle Maintenance and are ready to progress to more advanced skills. At this level, learners will specialise further in motorcycle systems, focusing on inspection, diagnostics, and repair. Building on the knowledge and experience gained at Level 2, students will learn how to identify and diagnose a range of faults using appropriate tools and techniques.

The course covers all major aspects of motorcycle technology and encourages a deeper understanding of how systems interact and perform under different conditions. A mixture of workshop and theory sessions will ensure students gain both practical and theoretical knowledge, preparing them for employment or further study in the motorcycle industry.

What You Will Study

Units include:

- Health and Safety in the Workshop
- Transmission Systems
- Engine Systems
- Understanding Customer Needs

This qualification is ideal for those aiming to move into the workforce, pursue an apprenticeship, or continue on to higher-level technical training.

Attendance Expectations

One day per week.

How You Will Be Assessed

You will be assessed through practical tasks in the workshops, completion of portfolio work and end of unit online exams.

Entry Requirements

GCSE Grade 9-4, including English and Maths.

AND

START DATE

September

LEVEL

Level 3

STUDY MODE

Part-time

DURATION

1 year

AWARDING BODY

Institute of Motor Industry (IMI)

LOCATION

Castleford College
