

T Level Health

Course Overview

This course is equivalent to three A Levels.

Students on the T Level in Health develop their knowledge and skills through a combination of classroom learning, practical application and real-world workplace experience over a two-year programme. They benefit from access to hospital simulation wards equipped to industry standards, enabling them to learn and practice clinical skills in a realistic environment while preparing for professional roles in the healthcare sector.

Students will undertake an industry placement for one day per week, working towards a minimum of 315 hours across the duration of the qualification, providing valuable hands-on experience in real healthcare settings.

What You Will Study

Topics of study include but are not limited to:

- The healthcare sector
- Managing information and data in healthcare
- Providing person-centred care
- Health and wellbeing
- Safeguarding
- Core science concepts
- Human biology systems
- Infection, immunity and disease

How You Will Be Assessed

Across the two-year T Level in Health, assessment is split evenly between the core component (generally Year 1) and the occupational specialism (generally Year 2): in the first year, students complete externally set and marked written examinations (two papers) alongside an Employer Set Project (ESP)—a substantial, case study-based assessment involving tasks such as research, role play, care planning and presentation—which together assess underpinning knowledge, understanding and core skills and make up 50% of the overall qualification.

In the second year, students complete a single synoptic occupational specialism project, typically lasting several hours and made up of multiple scenario-based tasks (e.g. practical activities, professional discussions and applied care tasks), which assesses their ability to apply knowledge, skills and behaviours to achieve occupational competence in a chosen pathway.

START DATE

September

LEVEL

Level 3

STUDY MODE

Full-time

DURATION

2 years

AWARDING BODY

Pearson BTEC

LOCATION

Wakefield College
